My Motivation to join EWB India board.	<p>Cyient is yearly donating six lakhs to EWB India since 2010. Cyient engineers are actively participating in all the EWB projects carried out at various locations in and around Hyderabad that includes Krushi Home, KGNMT, KGBV, e-Learning Centers in various government schools.</p> <p>Engineers working in Cyient and part of EWB India are actively involved in setting of e-Learning Center in Bangalore and Vizag locations. The commitment level of these engineers inspired me to take part by joining to EWB India Board. I &amp; my team are committed to continue our active participation in all the EWB projects. I will also focus on:</p> <ul style="list-style-type: none"> <li>• Develop additional professional chapters for EWB using my networking</li> <li>• Encourage engineers to join &amp; volunteer EWB projects to serve underprivileged society</li> <li>• Mentor student chapters in engineering colleges</li> <li>• Review and guide the student chapter proposals</li> </ul>
